

Coastal Emergency Risks Assessment (CERA) Terms & Conditions

The storm surge information presented on the CERA related websites represents intellectual property of the ADCIRC storm surge model group at the University of North Carolina at Chapel Hill, the ADCIRC Surge Guidance System (ASGS) system developed at Seahorse Coastal Consulting (NC), and the Coastal Emergency Risks Assessment (CERA) program at the Louisiana State University.

The storm surge model data and the CERA graphical displays are research efforts and should never be conveyed as official storm surge guidance for the general public. The products are produced, solely, to provide guidance to emergency managers, and designated emergency responders. Please obtain official storm surge guidance from the National Weather Service advisories.

Permission to use information and data associated with the CERA/ASGS storm surge product can be obtained from

Carola Kaiser, Louisiana State University (ckaiser@cct.lsu.edu)

Jason Fleming, Seahorse Coastal Consulting (jason.fleming@seahorsecoastal.com)
